*WHO Situation Report #108 | May 8, 2020

SITUATION OVERVIEW

Information on the Emergency

The Coronavirus (COVID-19) outbreak began in Wuhan Province, China when 44 patients were reported to show symptoms of an unknown disease in December 2019. On 11 March 2020, the World Health Organisation declared COVID-19 a pandemic. As of 8 May 2020 according to WHO, the number of confirmed cases globally has risen to more than 3,672,238 individuals and 254,045 deaths. Of these, in the Asian countries included in this SitRep, the number of confirmed cases is 226,395 and 9,606 deaths.

Humanitarian Situation

- Elderly Populations being more vulnerable than other groups, has increased the number of challenges faced by them.
- Most Health care facilities and institutions have requested for support towards addressing COVID-19.
- Uncertainty of livelihoods, especially in terms of daily laborer’s
- Most countries and their respective health institutions lack adequate resources to effectively address COVID-19. i.e. PPE, Disinfecting material etc.
- Families and Communities living under Quarantine are facing challenges acquiring essential items such as food and hygiene material needed to combat spread of COVID-19.
- Many organizations have stepped in to raise awareness and to share messages on COVID-19 and precautions that need to be taken.

Gaps in Humanitarian Assistance

- Increased support is needed to ensure the most vulnerable population (elderly) are able to safeguard themselves.
- The number of families living under quarantine is increasing and are in need of nutritional and hygiene support.
- Support towards the managing quarantine centers (Food, hygiene items etc).
- Psychological Support for communities and families of infected/dead individuals.
- While much support is being channeled towards Health care facilities/ institutions and organizations, there is still a gap in available resources of the countries to effectively respond/curtail COVID-19.

ADRA’S RESPONSE

Needs Assessment

Due to restrictions placed, ADRA has been unable to carry out their own needs’ assessment. Due to this reason, ADRA has been in frequent contact with the MOH officers who have conveyed the needs for the Districts that have not yet been met.

Funding Opportunities

The ADRA Network is working with various donors at an international and local level. Some of our donors/potential donors within the region are; LDS charities, UN agencies, EU delegations, KirkinActie, BMZ, Global Affiars Canada, DFAT, CFGB, Australian Aid, MFAT, DFAT, Various Embassies and Seventh Day Adventist Church Missions and Unions.

ADRA’s Response Activities

While having a strong focus on WASH, Health, Food Security, Cash Transfer and Voucher assistance, our offices have also been highly involved in Risk Communication. Our offices are currently making plans for early recovery and linking to development.
**RESPONSE COORDINATION**

Coordination with other Organisations

Coordination is being carried out at respective country levels through clusters and HCTs where applicable. ADRA Asia has been conducting weekly coordination meetings to understand needs of countries, pool resources, share learnings and identify potential regional funding. ADRA Asia has also been representing in the UN OCHA regional calls on a weekly basis and participating in various working groups and in ADRA’s activated global coordination.

Cluster Meetings

Many of the relevant ADRA working groups and Technical Learning Labs have met to discuss potential support that needs to be provided towards the Country Offices. The Steering Committee of the Learning Labs have initiated discussions on the COVID-19 in order to encourage the TLLs to work towards identifying ways to support the country offices.

**CONSTRAINTS**

Security Constraints

The security constraints remain the same in all countries; ADRA faces a major security constraint due to the risk of staff being infected with COVID-19. In order to minimize the risk, ADRA offices in the 5 countries have taken appropriate steps as per regulations in the respective countries including activating work-from-home, ceasing field activities, provision of training on preventive measures, provision of safety material (masks) etc.

Other Constraints

The lockdowns, imposing curfew measures and the travel restrictions placed in the countries as precautionary and controlling measure is a major constraint for the ADRA teams. This has placed limitations for the teams when attempting to carry out pre-planned activities, identifying & selecting suppliers for emergency response activities and other project activities, ability of ADRA staff to travel to the project locations, having to conduct remote monitoring, inability to interact with the communities in need and more.

### CAMBODIA

**Supply PPE:**
- 85 - Infrared thermometers
- 14,950 - Masks
- 29,900 - Gloves
- 2,550 - Litres of Alcohol/Gel
- 81 - Infrared Thermometers
- 4 - Referral Hospitals
- 73 - Health Centres/Health Posts

Communication and Promotional Campaigns:
- 90 - Local provincial Radio programming (up to 1 hour per day for 3 months)
- 3,620 - Brochures

PUBLIC RELATIONS

Media
The ADRA Asia Facebook and Instagram accounts continue to be updated daily. The Facebook page has 443 likes and 469 followers and Instagram has 345 followers as of 8 May 2020.

The ADRA Asia website is in the last stages of development and expected to go live soon pending approval and logistics.

The ADRA Asia Youtube Channel will be available within this month or next month.

15 country offices have confirmed their Communications Focal points and contact has been made to share resources and stories. 2 offices have yet to respond.

Quotes
"Soraya (who is a beneficiary from the Thai Community) wants to share to others that even though many people may think you are not very talented or know how to use their talents to help others, they still can be a blessing to someone who is in need as long as they try and not give up. By hearing and listening to God, I knew this what I needed to do."

Story/News
Sharoon Masih is a refugee working as a Barber to support his 2 young children aged 2 years and 4 months in Bangkok, Thailand. His youngest child was born premature which has caused stress for he and his wife. Since the COVID-19 pandemic began in Thailand, Sharoon’s Barber shop was closed and he has been unemployed with no work or income.

Upon hearing this, ADRA Thailand’s Program Coordinator Tedgrit Promicpic from the ‘Bangkok Urban Marginalised People’ project got in contact with Sharoon to help out. Tedgrit contacted friends and church members of the Bangkok International Church through social media to see if anyone wanted to have a haircut by Sharoon.

“To my surprise, many have responded. On day 1 (April 13), there were about 6 people. The next day, 2 more. On the third day, 2 more again and another 2 the next day. It seems to me that almost every day Sharoon has had customers”, said Tedgrit.

“This month I am very blessed with the haircut days organized by Brother Tedgrit. I have many customers for hair-cutting amidst the Covid-19 situation because Brother Tedgrit helped me contact his friends and church members, so I have customers. Thank you so much to Tedgrit (ADRA Thailand Staff) for helping me with customers, and especially thanks to the church members to allow me space for haircutting. Our family is very thankful for your love and support and I hope to have more customers in the future”, Sharoon stated.
